BIDDING IN THE JUNGLE

These days everybody seems to have something to bid on every hand. Learn how to compete in the bidding jungle, and use your opponent’s bids to your advantage. Andy will cover not only more conventional treatments such as cue and law raises, but also artificial bids such as transfer bids. There will be no jungle now – only clear fields!

Tuesday 6th October at 10.00am

TRICKY DEFENCE AT TRICK TWO

The last time Andy was here we learnt to make better opening leads – now we have won the first trick and have to find the correct line of defence. Can partner help by signalling? What has seeing dummy done to change either defender’s thought processes? Come and see how much easier trick two can be with additional armoury.

Cost is \$20.00 per lesson or \$35 for both
