After the same auction as above, what should West do at trick 2 if East played the ♠10 on West's ♠A and South followed with the ♠4?

BLASS North-South: After the auction given, West led ♠A: nine – ten – four and switched to the ♦J: three – two – ace. South played ♣K, ♣A, finessed the ♦10, cashed ♦K, ruffed a spade, ruffed a diamond, ruffed a spade and pitched a heart loser on dummy's fifth diamond, one down.

BRIDGE SCANNER North-South:

West	North	East	South
1♠	Pass	2♠	3♣
4♥	5♣	5♥	Pass
5♠	6♣	Dble	All Pass

West led the ♠K: nine – ten – four and switched to the ♥K, followed by the ♥7 to the ♥A. East switched to the ♦2: ten – jack – three. That was three down, East-West +500 and 9 Imps to BLASS. The third undertrick was simply a misguess in diamonds by declarer. Playing the ♦10 would have worked if East had started with Q-J-2 or Q-J-6-2 or Q-J-9-2 and saved a trick if East had Q-J-9-6-2.

In a trump contract, when dummy has a singleton and partner's lead will hold the trick, it is usually best to give a suit-preference signal rather than attitude or count. So why did one West treat the ♠10 as asking for diamonds and the other as asking for hearts? The former probably took the ♠10 as bottom from Q-J-10 and so asking for the low suit. The other read the ♠10 as high, maybe from the actual holding, maybe from 10-8-7.

One of the fundamental principles for defence is to make the situation as clear to partner as possible. Here it would be a good idea for East to signal with the ♠Q at trick 1. In most cases the queen-signal promises the jack, but that should not apply here, where the over-riding question is what to play at trick 2. It would make no sense for West to play a spade at trick 2 even if East did have ♠Q-J-x. The ♠Q should therefore be obvious to West to switch to hearts. That would yield two down. Declarer may or may not lose a diamond trick later.

ROSENTHAL East-West played in 5♥, +650, after East-West competed to 5♣. **STREET** East-West bid 1♠ : 2♠, 4♠, all pass, +650, no swing.

GUPTA East-West: The auction recorded is 1♠ : Pass : 2♠ : 2NT, 4♠ : 5♣, all pass. Declarer lost a spade and two hearts, but avoided a diamond loser, one light, –50. That is a strange 2NT bid for South, so treat the auction with caution (a cute anagram). **RUSSIA** East-West: 1♠ : Pass : 2♠ : Pass, 4♠, all pass, +650 and 12 Imps to **RUSSIA**.

DE BOTTON 5♥ +680 [1♠ : P : 2♥ – good spade raise : 3♣, 4♥ : 5♣ : 5♥, all pass] picked up 1 Imp against **DONNER** for 5♠ +650 [1♠ : P : 2♠ : 3♣, 4♠ : 5♣ : X : P : 5♠, all pass].

BLASS North-South: After the auction above, West led the ♠A. What is it with this predilection to lead out aces against a trump contract? Obviously West was hoping to find East with the ♠K and score a third-round ruff, but there was no evidence that East should have the ♠K. One might lead an ace against a trump contract when dummy is known or expected to have a source of tricks on which declarer can discard. There was no evidence of that either.

West switched to the ♦A at trick 2, then the ♠J: four – queen – king. South played the ♥2: three – ace – queen, came to hand with the ♣5 to the ♣Q and laid down the ♥10: eight – four – ♦7. After a heart to the king, declarer ruffed a spade and had 11 tricks + 450.

BRIDGE SCANNER North-South: Pass : 2♦ (multi) : Pass : 4♣ (transfer me to your major), Pass : 4♦ : Double : Pass (OK, now bid 4♥ yourself), Pass : 4♥, all pass. Declarer won the club lead and cashed ♥A, ♥K, ♣K, ♣Q and ruffed the fourth club in dummy. A spade went to the king and ace and so declarer lost two spades, a diamond and a heart, one light, East-West +50 and 11 Imps to **BLASS**.

ROSENTHAL vs **STREET**: Flat board in 4♥ –50. Ditto in **DE BOTTON** vs **DONNER**.

GUPTA: 4♥ one off, –50.

With **RUSSIA** North-South, everyone bid diamonds:

(1) Weak two in hearts or in spades

(2) Bid your major.

North took ♣A, ♥K, ♣K, followed by ♣5: jack – queen – ♦2, one off, –200, 6 Imps to **RUSSIA**.
