

# 344. Stopping short

By Ron Klinger

Dealer East : Both vulnerable

West	North	East	South
		1♦	Dble
Pass	1♥	Pass	1NT
Pass	?		

What would you do as North with:

♠ 98  
♥ A9542  
♦ J104  
♣ 875

Opener's sequence of takeout double followed by 1NT opposite a hand that might have no points, shows about 19-21 points. The North hand is therefore worth an invitation via 2♦ transfer to hearts (even though hearts have already been bid by North), followed by 2NT to invite game.

The deal comes from the 2017 Spingold (USA Open Teams) semi-final match between [DIAMOND](#) and [MITTELMAN](#).

Bd. 40: Dealer East : Both vulnerable

	North	
	♠ 98	
	♥ A9542	
	♦ J104	
	♣ 875	
West		East
♠ A10764		♠ 532
♥ 103		♥ QJ7
♦ 832		♦ K95
♣ 1064		♣ KQ93
	South	
	♠ KQJ	
	♥ K86	
	♦ AQ76	
	♣ AJ2	

After the auction above, North for [MITTELMAN](#) passed 1NT, which became the contract. West led the ♠6. South won and ducked a heart to East, who switched to the ♣K: two – four – five. Next came the ♣3. South won with the ♣J, cashed the hearts, ditching spades, and took the diamond finesse for 11 tricks, +210.

[DIAMOND](#) North-South:

West	North	East	South
		Pass	1♣
1♠	Pass	2♣ <sup>(1)</sup>	Pass
2♠	Pass	Pass	Pass

(1) Strong spade raise

It is hard to be enamoured with West's 1♠ overall with a modest suit, only 4 HCP and facing a partner who could not open the bidding. Still, it did keep North-South out of game. Why South did not take a second bid with a 20-point hand is also a mystery.

Bd. 40: Dealer East : Both vulnerable

<p style="text-align: center;">North</p> <p>♠ 98</p> <p>♥ A9542</p> <p>♦ J104</p> <p>♣ 875</p>	<p style="text-align: center;">East</p> <p>♠ 532</p> <p>♥ QJ7</p> <p>♦ K95</p> <p>♣ KQ93</p>
<p style="text-align: center;">West</p> <p>♠ A10764</p> <p>♥ 103</p> <p>♦ 832</p> <p>♣ 1064</p>	<p style="text-align: center;">South</p> <p>♠ KQJ</p> <p>♥ K86</p> <p>♦ AQ76</p> <p>♣ AJ2</p>

Against West's 2♠, North led the ♦J, winning, followed by the ♦10, low, queen. South cashed the ♦A and the ♣A. Then came the 13th diamond, ♥3, ♠8. North took the ♥A. That was six tricks for the defence and South still had two trump tricks to come. That was three down –300 and 3 Imps to **DIAMOND**.

This was yesterday's problem:

Dealer East : Both vulnerable

West	North	East	South
		Pass	2NT <sup>(1)</sup>
Pass	?		

(1) 20-22 points, balanced

What would you do with the North hand?

A standard auction might go like this:

West	North	East	South
		Pass	2NT <sup>(1)</sup>
Pass	3♦ <sup>(2)</sup>	Pass	3♥
Pass	3NT <sup>(3)</sup>	Pass	?

(1) 20-22 points, balanced  
 (2) Transfer to hearts  
 (3) Choice of contracts

What would you choose as South? With the 4-3-3-3 pattern, double stoppers in spades and diamonds and almost a double stopper in clubs, there is a case for passing 3NT. On the other hand, 4♥ could be better if North's hand is not balanced. At teams, 4♥ can be safer. At pairs, passing 3NT is a reasonable move. On the actual deal, both 3NT and 4♥ make with overtricks.

When the deal was replayed in a game on BBO, it went 2NT : 3♦ (transfer), 3♥ (3+ hearts), 4♥, all pass. I am not convinced that bidding 3♥ to show 3+ hearts (and presumably 3NT to deny 3 hearts) is a good idea.

(1) Responder might want to pass 3♥ with a worthless or near-worthless hand and 5-6 hearts. (2) Suppose responder has 5 hearts and 4 spades. A 4-4 spade fit might play better than a 5-3 heart fit. After 2NT : 3♦, 3♥, would 3♠ by responder show 4 spades or be a cue bid? (3) What does opener do with 4 spades and 2 hearts? Do you bid 2NT : 3♦, 3♠ to show that? Why are we giving the opponents this information?

Against South's 4♥, West led the ♦3: jack – king – ace. Declarer played ♥A, ♥K and the ♠K. West won and shifted to the ♣6: five – queen – ace. South played ♠Q, ♠J, discarding a club from dummy, and ♦10, ♦Q and the 13th diamond, pitching dummy's last club. That was 11 tricks for North-South +650.

## Problem for Tomorrow:

Dealer West : Nil vulnerable

West	North	East	South
Pass	Pass	2♦ <sup>(1)</sup>	?

(1) 6 diamonds, 6-10 points

What would you do as South with:

♠ KQ3  
♥ QJ7  
♦ QJ9  
♣ A853
